

REPORT TO FACULTY SENATE

FROM: Academic Personnel Policy Committee

DATE: April 5, 2021

ACCOMPLISHMENTS:

APPC met with Lucas Schalewski to discuss a draft Survey Guideline and Process designed to promote ethical survey practices, limit survey fatigue, and improve the quality and effectiveness of surveys. The process does not apply to course or college specific surveys or to surveys sent to constituents by administrative governing bodies. The Guideline calls for the development of a committee to review surveys and provide guidance on survey drafting. APPC thought that the draft was well done and a good idea. We made suggestions to improve the language and process. We also requested that Lucas share the draft as an informational item at a future Senate meeting.

GOALS:
