Resolution concerning the process for electronic votes.

1. Votes cast through Zoom, during a Faculty Senate meeting, shall be valid and equivalent to votes cast in-person in the following circumstances. The intention is to make the process of casting votes through Zoom equivalent, as nearly as possible, to the in-person process.

A. For votes by raising hands:
   - In-person and Zoom votes shall be cast simultaneously.
   - Before the vote, all Zoom hands shall be down; if necessary, the Presiding Officer can declare that specific raised hands shall be ignored for the purpose of the vote.
   - Anyone wishing to cast a vote on Zoom must have their face visible on Zoom, raise their Zoom hand, and keep it raised, until all voters are released by the Presiding Officer.

B. For roll-call votes:
   - The sequence of the roll call shall be alphabetical and independent of whether members are attending in person or on Zoom.
   - Anyone wishing to cast a vote on Zoom shall must, when called, have their face visible on Zoom and cast their vote orally.

2. It is the responsibility of the Presiding Officer to enforce these procedures.

3. This resolution does not cover how Zoom voters shall cast a secret ballot.

4. This resolution shall expire and cease to have effect on June 1, 2023.
