

New Academic Program Workflow Form

General

Proposed Name: Science

Transaction Nbr: 00000000000171

Plan Type: Major

Academic Career: Undergraduate

Degree Offered: Bachelor of Science

Do you want to offer a minor? N

Anticipated 1st Admission Term: Fall 2023

Details

Department(s):

SCNC

DEPTMNT ID	DEPARTMENT NAME	HOST
0442	Science Administration	Y

Campus(es):

ONLN

LOCATION	DESCRIPTION
ONLN	Online

Admission application terms for this plan: Spring: Y Summer: Y Fall: Y

Plan admission types:

Freshman: Y Transfer: Y Readmit: Y Graduate: N

Non Degree Certificate (UCRT only): N

Other (For Community Campus specifics): N

Plan Taxonomy: 30.0101, Biological and Physical Sciences.

Program Length Type: Program Length Value: 0.00

Report as NSC Program:

SULA Special Program:

Print Option:

Diploma: Y Bachelor of Science in Science

Transcript: Y Bachelor of Science in Science

Conditions for Admission/Declaration for this Major:

2.0 GPA

Requirements for Accreditation:

None.

Program Comparisons

University Appropriateness

This proposed degree aligns with the UArizona strategic pillars:

1. Wildcat Journey, preparing students with the skills and mindsets to lead in the 4th Industrial Economy
2. Arizona Advantage, advancing our land grant mission to drive social, cultural, and economic impact

The proposed degree will add value to degrees in such fields as education, law, journalism, business, development, economics, management, humanities, etc.) so students in these fields are better prepared to apply their knowledge to the challenges of today. The degree thus prepares students with a foundation in science that will enable them to drive social, cultural, and economic change. Students will obtain an appreciation for scientific knowledge, laying a foundation for critical thinking. Additionally, understanding of science factors fundamentally into the background and mindset necessary for students to address challenges of the 4th Industrial Economy.

Arizona University System

NBR	PROGRAM	DEGREE	#STDNTS	LOCATION	ACCRDT
1	General Science, BS in Educati	BSED	15	NAU	Y

Peer Comparison

NAU offers a secondary education degree in General Science, Bachelor of Science in Education requiring students to take 53 units in STEM preparation

courses and 33 units in teacher preparation courses. The main similarity with the proposed program is in providing students with STEM instruction in 100- and 200-level (introductory) STEM preparation courses. The main difference is that all the upper division electives in the NAU program focus entirely on teacher preparation. Thus, although students acquire introductory science knowledge in the program offered by NAU, they do not acquire much depth. In addition to a strong foundation of introductory science knowledge, students in our proposed BS in Science add significant breadth and depth through 8 upper division electives reflecting their specific interests in science.

Other Support

Other Support Currently Available:

Science Administration

Other Support Needed over the Next Three Years:

The proposed BS in Science requires no additional faculty or infrastructure but will require an advisor for student support and a program manager to administer the program. The associate dean for undergraduate student success in the college of science will oversee hiring these personnel.

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

I. MAJOR REQUIREMENTS–

UNDERGRADUATE

Total units required to complete the degree	120
Upper-division units required to complete the degree	42
Foundation courses	
Second language	2 nd Semester Proficiency
Math	Substantial: S-Strand
General education requirements	<p>Entry course/1 unit – UNIV 101</p> <p>4 courses/12 units: Exploring Perspectives (one course from each domain required)</p> <ul style="list-style-type: none"> - Humanist - Artist - Social Scientist - Natural Scientist <p>3 courses/9 units: Building Connections</p> <p>Exit course/1 unit – UNIV 301</p>
Pre-major? (Yes/No). If yes, provide requirements. Provide email(s)/letter(s) of support from home department head(s) for courses not owned by your department.	No
List any special requirements to declare or gain admission to this major (completion of specific coursework, minimum GPA, interview, application, etc.)	No special requirements
Major requirements	
Minimum # of units required in the major (units counting towards major units and major GPA)	51

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

<p>Minimum # of upper-division units required in the major (upper division units counting towards major GPA)</p>	<p>25</p>
<p>Minimum # of residency units to be completed in the major</p>	<p>18</p>
<p>Required supporting coursework (courses that do not count towards major units and major GPA but are required for the major). Courses listed must include prefix, number, units, and title. Include any limits/restrictions needed (house number limit, etc.).</p>	<p style="text-align: center;">Complete 1 of the following:</p> <ul style="list-style-type: none"> -Math 122A (1) Functions of Calculus & Math 122B (4) First semester Calculus -Math 125 (3) Calculus
<p>Major requirements. List all major requirements including core and electives. If applicable, list the emphasis requirements for each proposed emphasis*. Courses listed count towards major units and major GPA. Courses listed must include prefix, number, units, and title. Mark new coursework (New). Include any limits/restrictions needed (house number limit, etc.). Provide email(s)/letter(s) of support from home department head(s) for courses not owned by your department.</p>	<p style="text-align: center;"><u>Core Courses</u></p> <p style="text-align: center;">Statistics Requirement. (3 units) Complete 1 of the following:</p> <ul style="list-style-type: none"> -Math 163 or 263 (3) Basic Statistics or Intro to Statistics and Biostatistics -PSY 230 (3) Psychological Measurement and Statistics <p style="text-align: center;">Core Science Requirement. (16 units) Complete 4 of the following (complete at least one course from each of biology, chemistry, and physics):</p> <ul style="list-style-type: none"> -MCB 181 R/L (4) Introductory Biology I with lab -ECOL 182 R/L (4) Introductory Biology 2 with lab -CHEM 141 & 145 (4) General Chemistry 1: Quantitative Approach with lab -CHEM 142 & 146 (4) General Chemistry 2: Quantitative Approach with lab -PHYS 102 & 181 (4) Introductory Physics 1 with lab -PHYS 103 & 182 (4) Introductory Physics 2 with lab <p style="text-align: center;">Or</p> <ul style="list-style-type: none"> -PHYS 141 (4) Introductory Mechanics -PHYS 241 (4) Introductory Electricity and Magnetism -PHYS 242 (4) Introductory Relativity and Quantum Mechanics <p style="text-align: center;">Additional Science Requirement (7 units). Complete 2 of the following:</p> <ul style="list-style-type: none"> -NSCS 200 (3) Fundamentals of Neuroscience & Cognitive Science -PSY 101 (4) Introduction to Psychology

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

	<p style="text-align: center;">Capstone Requirement (1 unit)</p> <p>-SCI 401 (1) Science Capstone</p> <p style="text-align: center;"><u>Upper division electives (24 units)</u></p> <p>Students take at least 4 courses in one area and the remaining 4 courses from any of those listed below for a total of 8 upper division electives. Example areas are listed below. An area may also be a grouping of classes from a single STEM department.</p> <p>Psychology</p> <ul style="list-style-type: none">-PSY 300 (3) Cognitive Neuroscience: A Guide to Mind and Brain-PSY 340 (3) Introduction to Cognitive Development-PSY 352 (3) Personality-PSY 360 (3) Social Psychology-PSY 381 (3) Abnormal Psychology-PSY 383 (3) Health Psychology-PSY 324 (3) Fundamentals of Aging-PSY 412 (3) Animal Learning-PSY 480 (3) Forensic Psychology <p>Earth Systems and Sustainability</p> <ul style="list-style-type: none">-ATMO 336 (3) Weather, Climate, and Society-HWRS 349A (3) Principals of Hydrology-HWRS 349B (3) Principals of Hydrology Lab-ATMO 436A (3) Weather Fundamentals <p>Genetics, Cell, and Molecular Biology</p> <ul style="list-style-type: none">-ECOL 320 (4) Genetics-ECOL 326 (3) Genomics-MCB 404 (3) Bioethics-MCB 410 (3) Cell Biology-MCB 411 (3) Molecular Biology-MCB 422 (3) Problem Solving with Genetic Tools

PHYS 182	1	Introductory Physics 2 Lab	PHYS 181	Online	F,Sp	Yes
PHYS 141	4	Introductory Mechanics	Calc 1, concurrent enrollment in MATH 129	Online	F,Sp	Yes
PHYS 241	4	Introductory Electricity and Magnetism	PHYS 141, CR, MATH 223	Online	F,Sp	Yes
PHYS 242	3	Introductory Relativity and Quantum Mechanics	PHYS 141, PHYS 142, PHYS 241 or OPTI 226	Online	F,Sp	Yes
NSCS 200	3	Fundamentals of Neuroscience & Cognitive Science	MCB 181R and PSY 101 or equivalent	Online	F,Sp	Yes
PSY 101	4	Introduction to Psychology	None	Online	F,W,Sp, Su	Yes
PSY 300	3	Cognitive Neuroscience: A Guide to Mind and Brain	None	Online	F,W,Sp, Su	Yes
PSY 340	3	Introduction to Cognitive Development	PSY 101 or PSY 150A1	Online	F,Sp,Su	Yes
PSY 352	3	Personality	PSY 101 or PSY 150A1	Online	Sp,Su	Yes
PSY 360	3	Social Psychology	PSY 101 or PSY 150A1	Online	Fa,Su	Yes
PSY 381	3	Abnormal Psychology	PSY 101 or PSY 150A1	Online	Sp,Su	Yes
PSY 383	3	Health Psychology	PSY 101 or PSY 150A1	Online	Fa,Su	Yes
PSY 324	3	Fundamentals of aging	PSY 101 or PSY 150A1	Online	Fa	Yes
PSY 412	3	Animal Learning	PSY 101 or PSY 150A1	Online	Sp	Yes
PSY 480	3	Forensic Psychology	PSY 101 or PSY 150A1	Online	Sp	Yes
ATMO 336	3	Weather, Climate and Society	None	Online	Fa, Sp, Su	Yes
HWRS 349A	3	Principals of Hydrology	MATH 122B or MATH 125	Online	Fa	Yes
HWRS 349B	3	Principals of Hydrology Lab	MATH 122B or MATH 125. Have previously taken HWRS 249A or concurrent	Online	Fa	Yes

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

			enrollment in HWRS 249A. Department permission required.			
ATMO 436A	3	Weather Fundamentals	MATH113 or MATH 122B and physics background (high school physics suffices)	Online	Sp	Yes
ECOL 320	4	Genetics	MCB 181R and MCB 181L or consent of instructor.	Online	Fall (7W1), Spring (7W1), Summer (5W1 & 5W2)	Yes
ECOL 326	3	Genomics	ECOL 182R and ECOL 182L	Online	Fall (7W2)	Yes
MCB 404	3	Bioethics	One year of college-level introductory biology; botany not acceptable.	Online	F,Sp,Su	Yes
MCB 410	3	Cell Biology	Not an MCB BS major. MCB 181R, MCB 181L, ECOL 182R, ECOL 182L.	Online	Fa,Su	Yes
MCB 411	3	Molecular Biology	Not an MCBBS major. Prerequisites MCB 181R, MCB 181L.	Online	Sp,Su	Yes
MCB 422	3	Problem Solving with Genetic Tools	MCB 181R and 181L.	Online	Su	Yes
ECOL 406R	3	Conservation Biology	ECOL 182R and ECOL 182L	Online	Summer (during 5W1 OR 5W2)	Yes
ECOL 437	4	Vertebrate Physiology	ECOL 182R and ECOL 182L	Online	Spring (7W1)	Yes
ECOL 485	4	Mammalogy	ECOL 182R and ECOL 182L	Online	Fall (7W2)	Yes
ECOL 487R	3	Animal Behavior	ECOL 182R and ECOL 182L	Online	Fall OR Spring (during 7W1 OR 7W2)	Yes
ECOL 487L	1	Animal Behavior Lab	ECOL 182R and ECOL 182L	Online	Fall OR Spring (during 7W1 OR 7W2)	Yes

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

ECOL 488	4	Arizona Mammals	ECOL 182R and ECOL 182L	Online	Summer (during 5W1 OR 5W2)	Yes
CHEM 241A	3	Organic Chemistry Lecture I	CHEM 105B, CHEM 142, CHEM 152 or CHEM 162.	Online	F,Su	Yes
BIOC 384	3	Foundations in Biochemistry	MCB 181R and (CHEM 142 or CHEM 152 or CHEM 105B or CHEM 162) and (CHEM 241A or CHEM 242A or CHEM 246A). BIOCBA and BIOCBS Students may not enroll.	Online	F,W,Sp,Su	Yes
BIOC 385	3	Metabolic Biochemistry	MCB 181R and (CHEM 142 or CHEM 152 or CHEM 105B or CHEM 162) and (CHEM 241A or CHEM 242A or CHEM 246A). BIOCBA and BIOCBS Students may not enroll.	Online	F,W,Sp,Su	Yes
CHEM 241B	3	Organic Chemistry Lecture II	CHEM 241A or CHEM 242A or CHEM 246A.	Online	F,Su	Yes
NROS 307	3	Cellular Neurophysiology	MCB181R , CHEM 151 with lab.	Online	F,Sp	Yes
NROS 308	3	Methods in Neuroscience	Prerequisite or concurrent enrollment in NSCS 307.	Online	F,Sp	Yes
NROS 310	3	Molecular and Cellular Biology of Neurons	NSCS 200	Online	F,Sp	Yes
NROS 418	3	Fundamental Principles of Systems Neuroscience	None	Online	F,Sp	Yes
NROS 330	3	Principles of Neuroanatomy: Cells to Systems	NSCS 200 and prerequisite or concurrent enrollment in NROS 307. Other courses may be accepted at the discretion of instructor.	online	F,Sp	Yes
NROS 430	3	Neurogenetics	MCB 181R (required), NROS 310 (recommended).	Online	F,Sp	Yes

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

NROS 440	3	How to Build a Brain: Mechanisms of Neural Development	NSCS 200 (in progress OK)	Online	F,Sp	Yes
NSCS 320	3	Issues and Themes in Cognitive Science	NSCS 200	Online	Fa,Sp	Yes
CGSC 344	3	Modeling the Mind: Computational Models of Cognition	NSCS 200	Online	Fa,Sp	Yes

- V. **Curriculum Map and Assessment Map** - Complete this table as a summary of your learning outcomes and assessment plan, using these examples as a model. If you need assistance completing this table and/or the Curriculum Map, please contact the [Office of Instruction and Assessment](#). Attach your Curriculum Map here.

Program: BS Science

Learning Outcome #1: Demonstrate foundational knowledge of the discipline (Basic Knowledge).
Concepts: core knowledge of the discipline
Competencies: Students will demonstrate understanding of the theories, fundamental principles, and concepts of the discipline.
Assessment Methods: This outcome will be assessed in participation in online discussions, exams, assigned readings, and discussion questions.
Measures: Direct measures include evaluation of homework, exams, papers, reports, or other student projects. Indirect measures will include student self-assessments via surveys and reflections
Learning Outcome #2: Apply modern and/or relevant laboratory skills and protocols to collect and analyze data (Laboratory Skills).
Concepts: laboratory skills and protocols for collecting and analyzing data
Competencies: Students will use quantitative skills to 1) collect data using the tools of the discipline and 2) analyze the data.
Assessment Methods: This outcome will be assessed across several different laboratories the student takes.
Measures: Direct measures include Instructor grading of lab reports. Indirect measures will include student self-assessments via surveys and reflections
Learning Outcome #3: Communicate knowledge, ideas, and reasoning clearly, effectively, and objectively in written and oral forms (Communication Skills).
Concepts: communicate effectively, reason clearly, write and communicate objectively
Competencies: Students will demonstrate their knowledge through oral and written work
Assessment Methods: This outcome will be assessed using oral presentations and/or written papers in the capstone course
Measures: Direct measures include instructor grading of written and oral work. Indirect measures will include student self-assessments via surveys and reflections
Learning Outcome #4: Interpret data using scientific reasoning and foundational disciplinary knowledge through project-based activities and/or research projects (Scientific Reasoning and Research).
Concepts: basic experimental manipulations, analysis of data, implications of the experimental outcomes
Competencies: Students will demonstrate their ability to apply experimental methods and interpret data.
Assessment Methods: This outcome will be assessed in participation in online discussions, exams, lab reports, and discussion questions.
Measures: Direct measures include evaluation of student written work, project-based activities, or research projects. Indirect measures will include student self-assessments via surveys and reflections

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

Learning Outcome #5: Demonstrate teamwork skills by collaborating and participating with peers to produce various deliverables (e.g., data collection, data analysis, conclusions) (Teamwork).
Concepts: collaborative work, mutual respect, and shared values.
Competencies: Students will demonstrate the ability to work effectively in virtual teams by demonstrating mastery of professional skills including content knowledge, self-reflection, project-management, and teamwork.
Assessment Methods: This outcome will be assessed in classroom interaction, homework, or group projects.
Measures: Direct measures include grades of student contribution to a project. Indirect measures will include student self-assessments via surveys and reflections

VII. PROGRAM ASSESSMENT PLAN-

Assessment Measure	Source(s) of Evidence	Data Collection Point(s)
Job Placement Statistics	Student/Alumni Survey	At graduation annually (senior exit survey)
SCI 401 Senior Capstone	Percentage of students meeting the acceptable target for each learning objective measured using class assignments, reflections, presentations, and reports	Annually
Senior Exit Survey (will measure percentage of students rating each learning outcome at “Agree” or “Strongly Agree”	Student Survey	At graduation annually

VIII. ANTICIPATED STUDENT ENROLLMENT-complete the table below. What concrete evidence/data was used to arrive at the numbers?

5-YEAR PROJECTED ANNUAL ENROLLMENT					
	1 st Year	2 nd Year	3 rd Year	4 th Year	5 th Year
Number of Students	30	60	90	120	150

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

Data/evidence used to determine projected enrollment numbers:

We used enrollment rates in two comparable programs at peer institutions to anticipate program enrollment. The table below shows the total enrollment in these programs. We extrapolated a conservative value in line with the program at the University of Oregon established several years ago:

Summary of enrollments in two comparable programs at peer institutions			
University	Type of Degree	Degree Name	Total Enrollment (2022)
University of Oregon	BS	Multidisciplinary Studies	214
University of Houston Downtown	BS	Biological and Physical Sciences	105

IX. ANTICIPATED DEGREES AWARDED-

PROJECTED DEGREES AWARDED ANNUALLY					
	1 st Year	2 nd Year	3 rd Year	4 th Year	5 th Year
Number of Degrees	0	9	18	27	36

Data/evidence used to determine number of anticipated degrees awarded annually: We calculated a 60% graduation rate based on comparisons to similar programs at peer institutions. We also factored in students transferring into AZ Online and into the major.

X. PROGRAM DEVELOPMENT TIMELINE- describe plans and timelines for 1) marketing the major and 2) student recruitment activities.

All programs required for the major are already developed and delivered via AZ Online. Thus, we will not need time to develop new courses. We will work closely with the recruitment and marketing teams at Arizona Online to market the program through their marketing channels as soon as ABOR approves the degree program.

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

- XI. **Program Fees and Differential Tuition (PFDT) Request** – For implementation of fees, you must work with [University Fees](#). The annual deadline is December 1. For any questions, please contact the [University Fees Program Manager](#).

We do not plan to propose any program fees associated with any new courses for the BS in Science program.

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

Appendix C. ABOR Form

Request to Establish New Academic Program in Arizona

Please complete all fields. Boxes may be expanded to accommodate longer responses. Clarifying field descriptions can be found below. Should you have any questions or concerns, please email Helen Baxendale, Director of Academic Affairs and Policy at helen.baxendale@azregents.edu

University: University of Arizona

Name of Proposed Academic Program: Bachelor of Science in Science
Academic Department: College of Science—SCNC.
Geographic Site: Arizona Online
Instructional Modality: online/ONLN campus
Total Credit Hours: 120
Proposed Inception Term: Fall 2023
Brief Program Description: The B.S. in Science meets the needs of students in our AZ Online programs who wish to pair their degrees with basic training and skills in STEM. This interdisciplinary degree program emphasizing biological and physical sciences will enhance job opportunities for students with a strong interest in science who do not anticipate working as a professional scientist, but instead intend to use their knowledge in an intersectional field such as education, policy, law, or

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

education. It will also provide basic STEM background for medical and health services managers, medical assistants, natural sciences managers, and entry level science technicians. This degree will prepare students with a foundation in science that will enable them to drive social, cultural, and economic change.

This proposed degree aligns with the UArizona strategic pillars:

1. Wildcat Journey, preparing students with the skills and mindsets to lead in the 4th Industrial Economy
2. Arizona Advantage, advancing our land grant mission to drive social, cultural, and economic impact

The proposed degree will add value to degrees in such fields as education, law, journalism, business, development, economics, management, humanities, etc.) so students in these fields are better prepared to apply their knowledge to the challenges of today. The degree thus prepares students with a foundation in science that will enable them to drive social, cultural, and economic change. Students will obtain an appreciation for scientific knowledge, laying a foundation for critical thinking. Additionally, understanding of science factors fundamentally into the background and mindset necessary for students to address challenges of the 4th Industrial Economy.

Learning Outcomes and Assessment Plan:

Program: BS Science

Learning Outcome #1: Demonstrate foundational knowledge of the discipline (Basic Knowledge).

Concepts: core knowledge of the discipline

Competencies: Students will demonstrate understanding of the theories, fundamental principles, and concepts of the discipline.

Assessment Methods: This outcome will be assessed in participation in online discussions, exams, assigned readings, and discussion questions.

Measures: Direct measures include evaluation of homework, exams, papers, reports, or other student projects. Indirect measures will include student self-assessments via surveys and reflections

Learning Outcome #2: Apply modern and/or relevant laboratory skills and protocols to collect and analyze data (Laboratory Skills).

Concepts: laboratory skills and protocols for collecting and analyzing data

Competencies: Students will use quantitative skills to 1) collect data using the tools of the discipline and 2) analyze the data.

Assessment Methods: This outcome will be assessed across several different laboratories the student takes.

Measures: Direct measures include Instructor grading of lab reports. Indirect measures will include student self-assessments via surveys and reflections

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

<p>Learning Outcome #3: Communicate knowledge, ideas, and reasoning clearly, effectively, and objectively in written and oral forms (Communication Skills).</p>											
<p>Concepts: communicate effectively, reason clearly, write and communicate objectively</p>											
<p>Competencies: Students will demonstrate their knowledge through oral and written work</p>											
<p>Assessment Methods: This outcome will be assessed using oral presentations and/or written papers in the capstone course</p>											
<p>Measures: Direct measures include instructor grading of written and oral work. Indirect measures will include student self-assessments via surveys and reflections</p>											
<p>Learning Outcome #4: Interpret data using scientific reasoning and foundational disciplinary knowledge through project-based activities and/or research projects (Scientific Reasoning and Research).</p>											
<p>Concepts: basic experimental manipulations, analysis of data, implications of the experimental outcomes</p>											
<p>Competencies: Students will demonstrate their ability to apply experimental methods and interpret data.</p>											
<p>Assessment Methods: This outcome will be assessed in participation in online discussions, exams, lab reports, and discussion questions.</p>											
<p>Measures: Direct measures include evaluation of student written work, project-based activities, or research projects. Indirect measures will include student self-assessments via surveys and reflections</p>											
<p>Learning Outcome #5: Demonstrate teamwork skills by collaborating and participating with peers to produce various deliverables (e.g., data collection, data analysis, conclusions) (Teamwork).</p>											
<p>Concepts: collaborative work, mutual respect, and shared values.</p>											
<p>Competencies: Students will demonstrate the ability to work effectively in virtual teams by demonstrating mastery of professional skills including content knowledge, self-reflection, project-management, and teamwork.</p>											
<p>Assessment Methods: This outcome will be assessed in classroom interaction, homework, or group projects.</p>											
<p>Measures: Direct measures include grades of student contribution to a project. Indirect measures will include student self-assessments via surveys and reflections</p>											
<table border="1"> <thead> <tr> <th>Assessment Measure</th> <th>Source(s) of Evidence</th> <th>Data Collection Point(s)</th> </tr> </thead> <tbody> <tr> <td>Job Placement Statistics</td> <td>Student/Alumni Survey</td> <td>At graduation annually (senior exit survey)</td> </tr> <tr> <td>SCI 401 Senior Capstone</td> <td>Percentage of students meeting the acceptable target for each learning objective measured using class assignments, reflections, presentations, and reports</td> <td>Annually</td> </tr> </tbody> </table>			Assessment Measure	Source(s) of Evidence	Data Collection Point(s)	Job Placement Statistics	Student/Alumni Survey	At graduation annually (senior exit survey)	SCI 401 Senior Capstone	Percentage of students meeting the acceptable target for each learning objective measured using class assignments, reflections, presentations, and reports	Annually

To be used once the preliminary proposal has been approved.

Senior Exit Survey (will measure percentage of students rating each learning outcome at “Agree” or “Strongly Agree”	Student Survey	At graduation annually
---	----------------	------------------------

Projected Enrollment for the First Three Years:

5-YEAR PROJECTED ANNUAL ENROLLMENT					
	1 st Year	2 nd Year	3 rd Year	4 th Year	5 th Year
Number of Students	30	60	90	120	150

Evidence of Market Demand:

The data are from a Lightcast Q3 2022 Data Set provided by AZ Online and a Burning Glass report provided by Curricular Affairs. For students based in the U.S., the marketing report for CIP code 30.010 lists job growth expected over 10 years ranging from 3.89% (biological technicians) to 40.85% (medical and health services managers) with job growth expected for secondary school teachers (13.49%), medical assistants (21.14%), Industrial Production managers (11.17%) and natural sciences managers (5.14%) also.

Additionally, Arizona Global, who will eventually be added as a campus has expressed market demand for this degree.

Similar Programs Offered at Arizona Public Universities: NAU offers a secondary education degree in General Science, Bachelor of Science in Education requiring students to take 53 units in STEM preparation courses and 33 units in teacher preparation courses. The main similarity with the proposed program is in providing students with STEM instruction in 100- and 200-level (introductory) STEM preparation courses. The main difference is that all the upper division electives in the NAU program focus entirely on teacher preparation. Thus, although students acquire introductory science knowledge in the program offered by NAU, they do not acquire much depth. In addition to a strong foundation of introductory science knowledge, students in our proposed BS in Science add significant breadth and depth through 8 upper division electives reflecting their specific interests in science.

FOR CURRICULAR AFFAIRS USE ONLY

Objection(s) Raised by Another Arizona Public University? YES NO

Has another Arizona public university lodged a written objection to the proposed program with the proposing university and the Board of Regents within seven days of receiving notice of the proposed program?

THE UNIVERSITY
OF ARIZONA

ACADEMIC PROGRAM – ADDITIONAL INFORMATION FORM

To be used once the preliminary proposal has been approved.

If Yes, Response to Objections:

Please provide details of how the proposing university has addressed the objection. If the objection remains unresolved, please explain why it is in the best interests of the university system and the state that the Board override it.

New Resources Required? (i.e., faculty and administrative positions; infrastructure, etc.):

The proposed BS in Science requires no additional faculty or infrastructure but will require an advisor for student support and a program manager to administer the program. The associate dean for undergraduate student success in the college of science will oversee hiring these personnel.

Plan to Request Program Fee/Differentiated Tuition? NO

Estimated Amount: N/A

Program Fee Justification: N/A

Specialized Accreditation? NO

New Academic Program Budget Projection Form Justification

The program funding projection for the BS in Science includes three years of budget projection information related to the new major.

Metrics

We calculated the total number of SCH and enrollments (majors) we expect the program to generate each year for the college reflecting a net increase to the college. We also considered students transferring in from community colleges and SCH or enrollment within the college for students who might transfer to the new major. Our formulas per year reflect projected increases in the AIB model provided by the university.

As all courses are already delivered online. We do not anticipate needing to hire additional Faculty FTE needed for the major given minimal impact on any one course given the flexibility for course choice and the many courses available to students.

Funding Sources

Funding sources related to SCH and enrollments stem from the net new activity described in the metrics section above. No one-time funds are needed or funds from Reallocation of existing sources or Other Items sources.

No Institutional Strategic Investment funds are needed.

Expenditure Items

We budget the cost of an advisor to provide support for students and a program manager to administer the program factoring in annual raises. No other marginal costs, GA Assistantships or other expenditures related to the new program are expected (see information above).

**New Academic Program
PEER COMPARISON**

Program name, degree, and institution	Proposed UA Program BS in Science	<u>Secondary Education - General Science, Bachelor of Science in Education</u> Northern Arizona University	<u>BS in Biological and Physical Sciences</u> University of Houston Downtown	<u>Multidisciplinary Science Program</u> University of Oregon
Current number of students enrolled		15	105	214
Program Description	This degree provides basic instruction in the core sciences including biology, chemistry, and physics and breadth in upper division coursework requiring students to select 4 classes from one of several STEM areas associated with the major and 4 additional courses from any of the STEM areas. Students will gain breadth and depth in areas of science of their choosing ranging from neuroscience, earth systems and sustainability, and genetics, cell, and	This degree equips secondary mathematics and science students (or teacher candidates) with the knowledge and practices necessary to teach diverse learners. It prepares math and science teachers for grades 6-12 STEM education in both STEM and education pedagogy. Faculty both specialize in mathematics and science education research and have extensive professional classroom experience.	This degree provides a broad curriculum in the liberal arts and natural sciences designed to meet individual career goals for students interested in multidisciplinary areas such as environmental, forensic, life, earth/geological sciences, or medical or patent law, medical technology, public health, or science education. This program will prepare students for graduate work or for rewarding careers through smaller classes, faculty mentoring, modern labs, hands-on experience, and flexible class options.	The multidisciplinary science degree allows students to design academic programs that satisfy the requirements for a BS degree while providing more breadth than traditional science programs. Many exciting areas of scientific inquiry, such as bioinformatics, environmental science, and biophysical science, require broad science backgrounds and encompass several disciplines.

	molecular biology, and more.			
Target Careers	K-12 education, policy, law, medical and health services managers, medical assistants, natural sciences managers, entry level science technicians	Math and science teachers, grades 6-12	Clinical Research Associate, Clinical Research Coordinator, Natural Science Manager, Medical Technologist, Forensic Scientist, Environmental Specialist, Data Analyst, Hydrologist, Secondary School Teacher, Medical Research Assistant	health sciences, science education, science-related business, science-related social service
Emphases? (Yes/No) List, if applicable	No	No	No	No
Minimum # of units required	120	120	120	182 (Quarter System)
Level of Math required (if applicable)	S-Strand (substantial): Requires Calculus I and statistics	M-Strand (moderate): Precalculus	M-Strand (moderate): Precalculus and introductory programming	S-Strand (substantial): Requires Calculus I and Calculus II, Introductory Computer Programming, or Statistics
Level of Second Language required (if applicable)	Second semester proficiency	N/A	N/A	4 th semester proficiency
Pre-Major? (Yes/No) If yes, provide requirements.	No	No	No	No
Special requirements to declare/gain admission? (i.e. pre-requisites, GPA, application, etc.)	2.0 GPA	Complete 30 units of pre-major coursework with 2.5 GPA, declared Secondary Education Major, State-Approved Identity Verified Print fingerprint clearance card.	2.0 GPA	2.0 GPA

Internship, practicum, or applied/experiential requirements? If yes, describe.	No	Yes. Students complete 12-unit teaching experience in final year	No	No
--	----	--	----	----

Additional questions:

1. How does the proposed program align with peer programs? Briefly summarize the similarities between the proposed program and peers, which could include curriculum, overall themes, faculty expertise, intended audience, etc.

The intended audience for the proposed program overlaps most closely with the B.S. in Multidisciplinary Science at the University of Oregon in terms of curriculum, faculty expertise, intended audience, and flexibility of the degree with a smaller number of required courses.

2. How does the proposed program stand out or differ from peer programs? Briefly summarize the differences between the proposed program and peers, which could include curriculum, overall themes, faculty expertise, intended audience, etc.

The proposed program stands out for having a relatively small number of required units and providing students with an array of upper division STEM courses for maximum flexibility in pairing this degree with other degrees. As none of the other programs provide online delivery, this program provides opportunity for unmet student need.

3. How do these differences make this program more applicable to the target student population and/or a better fit for the University of Arizona?

This degree in leaving 28-41 elective units open will allow maximum flexibility for students pursuing degrees that require knowledge of science, but do not require students to conduct science (e.g., education, law, journalism, business, economics, humanities, etc.) adding value to such degrees so that students are better prepared to apply their knowledge to the challenges of today. Although the program in Multidisciplinary Science at U Oregon has similar flexibility, U Oregon does not offer their program online allowing The University of Arizona to support an unserved student group.

Dear Doug, Lee, Joyce, Mike, Craig, Konrad, Chris, and Mary,

I am writing to obtain your approval to use the courses listed below from your departments in the proposed BS and BA in Science. The degrees will be offered in the online campus. Please respond to this email message and copy all. Please contact me directly on a different email thread with any questions.

Rebecca

- Math 122A (3) Functions of Calculus & Math 122B (3) First semester Calculus
- Math 125 (3) Calculus
- Math 113 (3) Elements of Calculus

Statistics Requirement. (3 units) Complete 1 of the following:

- Math 163 or 263 (3) Basic Statistics or Intro to Statistics and Biostatistics
- PSY 230 (3) Psychological Measurement and Statistics

Core Science Requirement. (16 units) Complete 4 of the following (complete at least one course from each of biology, chemistry, and physics):

- MCB 181 R/L (4) Introductory Biology I with lab
 - ECOL 182 R/L (4) Introductory Biology 2 with lab
 - CHEM 141 & 145 (4) General Chemistry 1: Quantitative Approach with lab
 - CHEM 142 & 146 (4) General Chemistry 2: Quantitative Approach with lab
 - PHYS 102 & 181 (4) Introductory Physics 1 with lab
 - PHYS 103 & 182 (4) Introductory Physics 2 with lab
- Or
- PHYS 141 (4) Introductory Mechanics
 - PHYS 241 (4) Introductory Electricity and Magnetism
 - PHYS 242 (4) Introductory Relativity and Quantum Mechanics

Additional Science Requirement (7 units). Complete 2 of the following:

- NSCS 200 (3) Fundamentals of Neuroscience & Cognitive Science
- PSY 101 (4) Introduction to Psychology

Capstone Requirement (1 unit)

- SCI 401 (1) Science Capstone

Upper division electives (24 units)

Students take at least 4 courses in one area and the remaining 4 courses from any of those listed below for a total of 8 upper division electives. Example areas are listed below. An area may also be a grouping of classes from a single STEM department.

Psychology

- PSY 300 (3) Cognitive Neuroscience: A Guide to Mind and Brain
- PSY 340 (3) Introduction to Cognitive Development
- PSY 352 (3) Personality
- PSY 300 (3) Social Development

- PSY 360 (3) Social Psychology
- PSY 381 (3) Abnormal Psychology
- PSY 383 (3) Health Psychology
- PSY 324 (3) Fundamentals of Aging
- PSY 412 (3) Animal Learning
- PSY 480 (3) Forensic Psychology

Earth Systems and Sustainability

- ATMO 336 (3) Weather, Climate, and Society
- HWRS 349A (3) Principals of Hydrology
- HWRS 349B (3) Principals of Hydrology Lab
- ATMO 436A (3) Weather Fundamentals

Genetics, Cell, and Molecular Biology

- ECOL 320 (4) Genetics
- ECOL 326 (3) Genomics
- MCB 404 (3) Bioethics
- MCB 410 (3) Cell Biology
- MCB 411 (3) Molecular Biology
- MCB 422 (3) Problem Solving with Genetic Tools

Ecology, Evolution, and Animal Behavior

- ECOL 406R (3) Conservation Biology
- ECOL 437 (4) Vertebrate Physiology
- ECOL 485 (4) Mammalogy
- ECOL 487R (3) Animal Behavior
- ECOL 487L (1) Animal Behavior Lab
- ECOL 488 (4) Arizona Mammals

Biochemistry

- ~CHEM 241A (3) Organic Chemistry Lecture 1
 - CHEM 241B (3) Organic Chemistry Lecture 2
 - BIOC 384 (3) Foundations in Biochemistry
 - BIOC 385 (3) Metabolic Biochemistry
- (~required for the remaining 3 courses in this grouping)

Neuroscience

- *NROS 307 (3) Cellular Neurophysiology
 - *NROS 310 (3) Molecular and Cellular Biology of Neurons
 - *NROS 418 (3) Fundamental Principles of systems Neuroscience
 - NROS 308 (3) Methods in Neuroscience
 - NROS 330 (3) Principles of Neuroanatomy: Cells to Systems
 - NROS 430 (3) Neurogenetics
 - NROS 440 (3) How to build a Brain: Mechanisms of Neural Development
- (*recommended courses)

Cognitive Science

- NSCS 320 (3) Issues and Themes in Cognitive Science
- CGSC 344 (3) Modeling the Mind: Computational Models of Cognition
- CGSC 310 (3) Multisensory Perception
- PSY 300 (3) Cognitive Neuroscience: A Guide to Mind and Brain (note: students may count this course toward one grouping only)

Subject: Approval for courses used in the proposed BA/BS in Science

Dear Doug, Lee, Joyce, Mike, Craig, Konrad, Chris, and Mary,

I am writing to obtain your approval to use the courses listed below from your departments in the proposed BS and BA in Science. The degrees will be offered in the online campus. Please respond to this email message and copy all. Please contact me directly on a different email thread with any questions.

Rebecca

-Math 122A (3) Functions of Calculus & Math 122B (3) First semester Calculus
-Math 125 (3) Calculus
-Math 113 (3) Elements of Calculus

Statistics Requirement. (3 units) Complete 1 of the following:

-Math 163 or 263 (3) Basic Statistics or Intro to Statistics and Biostatistics
-PSY 230 (3) Psychological Measurement and Statistics

Core Science Requirement. (16 units) Complete 4 of the following (complete at least one course from each of biology, chemistry, and physics):

-MCB 181 R/L (4) Introductory Biology I with lab
-ECOL 182 R/L (4) Introductory Biology 2 with lab
-CHEM 141 & 145 (4) General Chemistry 1: Quantitative Approach with lab
-CHEM 142 & 146 (4) General Chemistry 2: Quantitative Approach with lab
-PHYS 102 & 181 (4) Introductory Physics 1 with lab

-PHYS 103 & 182 (4) Introductory Physics 2 with lab

Or

-PHYS 141 (4) Introductory Mechanics

-PHYS 241 (4) Introductory Electricity and Magnetism

-PHYS 242 (4) Introductory Relativity and Quantum Mechanics

Additional Science Requirement (7 units). Complete 2 of the following:

-NSCS 200 (3) Fundamentals of Neuroscience & Cognitive Science

-PSY 101 (4) Introduction to Psychology

Capstone Requirement (1 unit)

-SCI 401 (1) Science Capstone

Upper division electives (24 units)

Students take at least 4 courses in one area and the remaining 4 courses from any of those listed below for a total of 8 upper division electives. Example areas are listed below. An area may also be a grouping of classes from a single STEM department.

Psychology

-PSY 300 (3) Cognitive Neuroscience: A Guide to Mind and Brain

-PSY 340 (3) Introduction to Cognitive Development

-PSY 352 (3) Personality

-PSY 360 (3) Social Psychology

-PSY 381 (3) Abnormal Psychology

-PSY 383 (3) Health Psychology

-PSY 324 (3) Fundamentals of Aging

-PSY 412 (3) Animal Learning

-PSY 480 (3) Forensic Psychology

Earth Systems and Sustainability

-ATMO 336 (3) Weather, Climate, and Society

-HWRS 349A (3) Principals of Hydrology

-HWRS 349B (3) Principals of Hydrology Lab

-ATMO 436A (3) Weather Fundamentals

Genetics, Cell, and Molecular Biology

-ECOL 320 (4) Genetics

-ECOL 326 (3) Genomics

-MCB 404 (3) Bioethics

-MCB 410 (3) Cell Biology

-MCB 411 (3) Molecular Biology

-MCB 422 (3) Problem Solving with Genetic Tools

Ecology, Evolution, and Animal Behavior

-ECOL 406R (3) Conservation Biology

-ECOL 437 (4) Vertebrate Physiology

-ECOL 485 (4) Mammalogy

-ECOL 487R (3) Animal Behavior

-ECOL 487L (1) Animal Behavior Lab

-ECOL 488 (4) Arizona Mammals

Biochemistry

~CHEM 241A (3) Organic Chemistry Lecture 1

-CHEM 241B (3) Organic Chemistry Lecture 2

-BIOC 384 (3) Foundations in Biochemistry

-BIOC 385 (3) Metabolic Biochemistry

(~required for the remaining 3 courses in this grouping)

Neuroscience

- *NROS 307 (3) Cellular Neurophysiology
 - *NROS 310 (3) Molecular and Cellular Biology of Neurons
 - *NROS 418 (3) Fundamental Principles of systems Neuroscience
 - NROS 308 (3) Methods in Neuroscience
 - NROS 330 (3) Principles of Neuroanatomy: Cells to Systems
 - NROS 430 (3) Neurogenetics
 - NROS 440 (3) How to build a Brain: Mechanisms of Neural Development
- (*recommended courses)

Cognitive Science

- NSCS 320 (3) Issues and Themes in Cognitive Science
- CGSC 344 (3) Modeling the Mind: Computational Models of Cognition
- CGSC 310 (3) Multisensory Perception
- PSY 300 (3) Cognitive Neuroscience: A Guide to Mind and Brain (note: students may count this course toward one grouping only)

TO: UGC, U-CAAC

FROM: Rebecca Gómez, Associate Dean for Undergraduate Student Success, College of Science

CC: Carmala Garziona, Dean, College of Science

DATE: February 14, 2023

SUBJECT: U-CAAC requested changes to proposed BA and BS in Science

Students in the BA take 3 of 5 upper division courses in one area. Students in the BS take 4 of 7 upper division courses in one area. Different areas may have different prerequisites offered at the 100 and 200 level.

The U-CAAC subcommittee that reviewed the proposed BA and BS in Science raised a concern that students would have difficulty navigating the different concentration areas in the degrees.

The College of Science will address this concern by developing advising plans for each area to help guide students to the necessary prerequisites for their chosen area of focus and the additional courses they may or may not take outside their focus.

Dear Melanie,

Please see the email confirmation I received from Elaine. I would be happy to write a memo for her to sign that would provide more detailed information if the message below is insufficient either because it has so little information or because she only mentions the BA. If there are specific issues I need to highlight for UGC I'm happy to include those. This attachment specifically lists the assessment plan for the BA but I mention below that the assessment plan for the BS is identical. Please advise.

Subject: RE: Meeting to put assessment plans for a new degree program in Taskstream

Hi Rebecca,
Yes, I remember and after looking at the BA, I approve the assessment piece.

Elaine

Dear Elaine,

I understand that I will need an email from you confirming that we worked together to develop an assessment plan for the proposed BA and BS in Science and that you approve of our direct and indirect measures. I am attaching information from the proposal to remind you how we plan to approach this. We are using the same learning objectives and approach for the BA and BS in Science.

Many thanks and I hope you are doing well,

Dear Elaine,

Thank you so much for your help with this and for the extra time it took for you to add course titles. This looks perfect. Thank you also for the help you provided on the table I will need to include in the additional information form for curricular affairs. I'll be in touch after approval so I can start work on the rest of the assessment process.

Rebecca,
Here is the map. I added the course titles to make it more detailed. Let me know if you have questions or need any changes.
