Updates

- Fiscal year 2024 [All Funds Planning](#) meetings for all colleges and units reporting to the Provost were completed on March 30. Final budget decisions will be announced in May.
- 360 surveys for deans and other Chapter 5 direct reports to the Provost have been distributed as part of the [annual review process](#).
- We are in the final stages of finalizing salary adjustments for CT faculty following the pay equity review, and about 90 individuals will receive notice of the resulting pay adjustments (effective 1 July) following the review. Grateful thanks to the college staff, deans, and heads who were terrific allies in reviewing the data and supporting adjustments to increase equity across our ranks. A full report of the process and outcomes will be shared online once complete.
- We hosted Accepted Students Day on 1 April, with over 7,000 RSVPs, and an 83.5% show rate, which is our best ever outcome. Grateful thanks to the Enrollment Management team and all of our campus partners who put on an extraordinary welcome event for incoming students.
