

REPORT TO FACULTY SENATE

FROM: Student Affairs Policy Committee

DATE: February 5, 2024

Overview:

The committee had our first meeting of the Spring on January 31.

The goal of the committee during the Spring 2024 semester is work on resources to share, whether through D2L, other social media pages, and other mechanisms, that faculty and staff can easily read and share with students. For example specific resources parking and transportation services, Campus Health, and other entities that are less widely known (such as the option for a Lyft for on campus students to grocery stores).

In February we will continue work on the resources and be joined by the Basic Needs Center.
