

REPORT TO FACULTY SENATE

FROM: Student Affairs Policy Committee

DATE: May 6, 2024

Overview:

The group spent most of the time working on a presentation of student related resources to be shared with faculty in Fall 2024, preferably in a slot in the first Faculty Meeting of the year. The presentation will include resources for faculty to be aware of that they can share with students, including ways they can be aware of what students might be going through at certain points in the semester. The group also discussed issues to tackle for the fall, including all-gender bathrooms and campus safety.
