Student Resources for Faculty

Looking into Resources for Students

- SAPC's work-spring 2024
 - What helpful resources for students are available and where can they be found?
 - Identified a gap in awareness of available resources and sharing of them with students.
 - Example—transportation to a grocery store...

What We Learned

- Many available resources
- No need to reinvent the wheel
- Worked with committee members from Student Success and Retention
- Discussed options for disseminating information

Resources for Faculty to Share with Students

Student Stress Cycle

Issues from Student Success and Retention PDF:

Each year college students contend with regular and calendar-based stressors in addition to whatever might be happening in the larger world. These are some items to consider when creating messaging for students.

Not all students will have the same types of discomfort or stressors, students hold many identities that will mean they experience different challenges, or the same challenges in a different way.
