University Appropriateness

Transdisciplinary Programs, the Southwest Studies (SWS) minor will offer an expansive undergraduate experience rooted in the intensive study of the peoples, places, and landscapes of the Southwest and borderlands region. Students minoring in SWS will develop a strong intellectual foundation and the practical skills to become engaged and compassionate global citizens committed to lifelong learning. The SWS minor leverages the University of Arizona's traditional strengths in research and education focused on the US Southwest, Northern Mexico, and the US-Mexico borderlands to foster an environment of collaborative exploration, diversity and inclusion, (inter)cultural competency, social justice, and an ethical commitment to the region by way of a reflective understanding of its many facets. Given its focus on questions of culture, language, ethnicity, gender, and race, the SWS minor likewise offers a natural outlet for engaging the university's growing Hispanic and Native American student populations, strengthening UArizona's mission as a Hispanic Serving Institution (HSI), American Indian and Alaska Native Serving Institution (AIANI), and as a Land Grant University. By exploring the region's diverse peoples, institutions, traditions, histories, ecologies, languages, and places, SWS students will be exposed to a broad range of topics and fields, as well as to innovative methods by which to study and understand them. Core courses are curated around an intercultural, interlingual and transdisciplinary approach so that students deepen awareness of the region's diverse ethnic and cultural traditions and enhance the capacity for critical reflection on their connections to global forces. The SWS minor complements a variety of majors, including, among others: American Indian Studies, Anthropology, Architecture, Art History and Museum Studies, Geography, Gender and Women's Studies, Journalism, Latin American Studies, History, International Studies, Library and Information

Science, Linguistics, Mexican American Studies, Education, English, Renewable Natural Resources, Geosciences, Sociology, and Spanish and Portuguese. With a focus on both social-scientific and humanistic inquiry, it will also round out degrees in the Earth and Life Sciences and Agriculture by helping students deepen their awareness and understanding of the social and cultural dimensions of the earth's physical processes. The SWS minor will prepare students across the disciplines to pursue advanced degrees and/or work in diverse fields, including: education, city and state government, law, cultural resource management, planning, public health, social work, marketing and communications, nonprofits, research, philanthropy, the service industry, and business.

Results of a survey of students in GEOG 408 – Geography of Arizona and the Southwest, conducted in spring 2020:

Question: “If the University of Arizona were to offer an interdisciplinary minor in Southwest Studies, I would be interested in pursuing such a program of study (even if you are a graduating senior or are too far along in your studies to pursue this minor,

please let us know whether you would have been interested).” Participating students overwhelmingly supported the idea of a SW Studies minor. Of a total 48 responses, 15 strongly agreed; 28 agreed; 4 neither agreed nor disagreed; 1 disagreed somewhat; and no one strongly disagreed.

Program Description	The Southwest Studies (SWS) minor offers an expansive undergraduate experience rooted in the intensive study of the peoples, places, and landscapes of the Southwest and borderlands region. Students minoring in SWS will develop a strong intellectual foundation and the practical skills to become engaged and compassionate global citizens committed to lifelong learning. The SWS minor leverages the University of Arizona's traditional strengths in research and education focused on the US Southwest, Northern Mexico, and the US-Mexico borderlands to foster an environment of collaborative exploration, diversity and inclusion, (inter)cultural competency, social justice, and an ethical commitment to the region by	The mission of the Southwest Studies program is to provide the finest liberal arts education, using a critical regional studies approach, centered on the Greater Southwest and the U.S.-Mexico borderlands. Spanning Texas, New Mexico, Arizona, Nevada and parts of Colorado, Utah, California, Oklahoma and northern Mexico, the diversity of the Southwest's landscapes and cultures are rivaled by few other regions on Earth. Our program's interdisciplinary approach to peoples, places, and landscapes provides a model for study applicable to any region. Using the insights of traditional disciplines in combination with critical approaches to learning, we provide a holistic view of the Southwest that educates students to observe places, learn from and with the region's peoples, and to imagine potential outcomes.	The Center for the Study of the Southwest offers an 18-hour minor in Southwestern Studies. The program engages the richness and diversity of the Southwestern United States and Northern Mexico and gives focus to intercultural studies through examination of the region's people, institutions, history, and physical and cultural ecology. An intercultural, interdisciplinary approach increases awareness of and sensitivity to the diversity of ethnic and cultural traditions in the area. Students examine the images, myths, and perceptions of the region in light of historic records. Students also discover the physical and cultural characteristics that distinguish the Southwest from other regions of the United States.

	<p>way of a reflective understanding of its many facets. By exploring the region's diverse peoples, institutions, traditions, histories, ecologies, languages, and places, SWS students will be exposed to a broad range of topics and fields, as well as to innovative methods by which to study and understand them. Core courses are curated around an intercultural, interlingual and transdisciplinary approach so that students deepen awareness of the region's diverse ethnic and cultural traditions and enhance the capacity for critical reflection on their connections to global forces. With a focus on both social-scientific and humanistic inquiry, the SWS minor will prepare students across the disciplines to pursue advanced degrees and/or work in diverse fields, including education, city and state government, law, cultural resource management, planning, public health, social work, marketing and communications, nonprofits, research, philanthropy, the service industry, and business.</p>

Additional questions:

1. How does the proposed program align with peer programs? Briefly summarize the similarities between the proposed program and peers, which could include curriculum, overall themes, faculty expertise, intended audience, etc.

The proposed SWStudies minor is quite similar in its focus, content and orientation to the two peers compared here. Each of these programs draws from the clear strengths of their respective faculties working on the Southwest, Northern Mexico, and Borderlands region, and each of them offers an intimate, “hands-on” learning experience for students, encouraging them to develop an integrated framework for analyzing regional dynamics and understanding their own situation within them.

2. How does the proposed program stand out or differ from peer programs? Briefly summarize the differences between the proposed program and peers, which could include curriculum, overall themes, faculty expertise, intended audience, etc.

The similarities among these programs far outweigh the differences, but the comparative strengths of the University of Arizona for this type of minor reside in the great number and diversity of our faculty who focus on the region; the huge number of course offerings; the possibilities for students to become involved in action-oriented research projects; the proximity of UArizona to Mexico and the US-Mexico border; the broad array of organizations and activists in the Tucson and border area working on regional issues; and a center (the Southwest Center) that strongly supports regional study and understanding, and with 60-plus years of publishing on the Southwest, northern Mexico, and the Borderlands.

3. How do these differences make this program more applicable to the target student population and/or a better fit for the University of Arizona? The University of Arizona is remarkably well suited to offer students in the SWStudies minor an exceptional academic experience. So many of our scholars focus on the region, as do many of our graduate students. Indeed, it's surprising that it has taken us so long to realize that UArizona is perhaps the best suited of all U.S. universities to offer a course of study on this region, and to create one!

Associate Research Professor, School of Geography, Development and Environment

Office Hour: TBA **email:** banister@arizona.edu

Course Description

A multi-modal interdisciplinary introduction to the US Southwest and Northwest Mexico, drawing upon Southwest Center faculty expertise in social sciences and humanities approaches to the interaction of Indigenous, Hispanic, and Euroamerican peoples of the region. The physical and cultural landscape, as a construct of the cultures it has formed and sustained, will be the primary focus. Topics may include multicultural understandings of space, place, and identity, material culture and the built environment, the cultural, culinary, and artistic imaginary, filmic representation, and human adaptation to and exploitation of the natural environment through time. Students will engage in a meaningful dialogue concerning one's position and obligation to a specific place. The class will take advantage of the rich array of primary sources available in local archaeological and historical sites, archives, and repositories.

Course Prerequisites or Co-requisites

Completion of First Year Writing requirements.

Course Format and Teaching Methods

Course content will be delivered by a series of participant faculty who will “visit” for two-week residencies. Each class period will contain a lecture followed by in-class discussion, with online followup as necessary. Health and safety permitting a series of field trips will enhance experiential by immersion in historical and cultural landscapes and spaces of the region.

Course Objectives and Expected Learning Outcomes

Students in this course will gain the skills to

- Understand the history and cultural expressions of indigenous, colonial, and settler cultures across the region
- Encounter and appreciate the landscape and primary tri-societal cultures of the region
- Identify and analyze connections among environmental, social, and cultural processes
- Understand and express verbally and in writing major concepts in the fields comprising Southwest Studies

Attendance, Participation, and Late Work Policy

The UA's policy concerning Class Attendance, Participation, and Administrative Drops is available at:

<http://catalog.arizona.edu/policy/class-attendance-participation-and-administrative-drop>

The UA policy regarding absences for any sincerely held religious belief, observance or practice will be accommodated where reasonable, <http://policy.arizona.edu/human-resources/religious-accommodation-policy>.

Absences pre-approved by the UA Dean of Students (or Dean Designee) will be honored. See:

<https://deanofstudents.arizona.edu/absences>

Participating in course discussions and attending lectures and other course events are vital to the learning process. As such, attendance is required and will be taken at all regularly scheduled, online class meetings. In-class assignments and activities are designed to accommodate absences based on unforeseen circumstances. **Late work will not be accepted unless by prior agreement with the instructor.** This means petitioning the instructor via email (even if you have already provided verbal notice) for an exception if you feel you have a compelling reason for turning in work after the due date. **Student athletes** must meet with the instructor to make arrangements for missed classes. Students who register after the first class meeting must contact the instructor to make up any missed assignments.

To request a disability-related accommodation to this attendance policy, please contact the Disability Resource Center at (520) 621-3268 or drc-info@email.arizona.edu. If you are experiencing unexpected barriers to your success in your courses, the Dean of Students Office is a central support resource for all students and may be helpful. The Dean of Students Office is located in the Robert L. Nugent Building, room 100, or call 520-621-7057.

Extracurricular Activities

There will also be four “field trips”: off-campus visits to Casa Grande National Monument and Mission San Xavier del Bac; and on-campus visits to the Arizona State Museum and UA Special Collections.

Plan of Work

Southwest Center faculty and affiliates will cover topics in their areas of research and expertise. Readings will be assigned by individual faculty for a specific semester.

Weeks	Topics	Faculty		
1	Intro & Overview	Sheridan		
2-4	Peoples Indigenous Spanish Anglo Settler	Sheridan Brescia Reineke		
5-6	Digital Storytelling	Duncan		
7-8	Places Landscape Flora & Fauna Mapping Development	Banister Yetman B. Wilder (guest)		

9-11	Borders Human impact	Reineke		
12-16	Expressions Arts Texts Voices Foodways	Jenkins, Pérez, Alvarez		

Assignments

Grades will be based on class attendance/participation, weekly 2-page responses to lectures and one 10-page essay on a topic concerning human society in the Southwest or Northern Mexico, as covered in *High Country News* or *Indian Country Today* and approved by the instructor.

Assignment	Percentage of Final Grade
Attendance	10
Participation	10
Response papers	30
Instructor Check-in 1	5
Instructor Check-in 2	5
Digital Storytelling Project	20
HCN/ICT Semester Project	20
Total	100

Response Papers

Weekly 2-page responses to readings, used as a basis for discussion and topic exploration for the two larger assignments

Digital Storytelling

Based on training received in Weeks 5-6, you will develop a 5-minute digital story about some aspect of the region or issue in Southwest Studies. The project should be research-based to the extent that it is grounded in facts and sources about the region.

High Country News (HCN) or Indian Country Today (ICT) Semester Project

This project requires you to track, analyze, and write about a topic (or set of related topics) reported on in *High Country News*, which provides close coverage of many of the issues we will be discussing in this class. The project consists of three components, due at different times in the semester: 1) a short, mid-term progress report; 2) a brief synopsis presented to the class at the end of the semester; and 3) a brief final report, also due at the end of the semester. Detailed and timely instructions will be provided. The HCN project is worth 20 points.

Grading Scale and Policies

(A) 90-100 (B) 80-89 (C) 70-79 (D) 60-69 (E) 59 and below.

Grading: Students are expected to demonstrate understanding of the material through sophisticated analysis, critical thinking, and writing skills and to approach all work in an honorable and forthright manner. Written work will be graded on mastery of the material and applied task, effective analysis of course materials and ideas, and students' ability to write at a college-level, with appropriate command of the disciplinary discourses. As nascent professionals, you know that Google is NOT the first (nor last) stop in your search strategy. Any research or consultation of outside sources must be fully, honestly, and correctly documented.

Grading Scale: **A = Excellent.** All work completed in an outstanding manner, showing mastery of the material through sophisticated analytical and critical thinking and writing skills. **B = Very Good.** All work completed in an above-average manner in both analysis and writing, or work that is outstanding in one category but not the other. **C = Average.** Work completed adequately, but with insufficient analysis or critical approach, or unclear organization and weak writing skills. **D = Poor.** Work done on a level measurably below average, containing many mechanical and factual errors or poor writing and analytical skills. **E = Failure.** Incomplete work, or work replete with mechanical, analytical, factual, and writing errors.

Substance and analysis will be used as primary criteria for the evaluation of assignments and participation. Students are expected to produce college-level writing. Significant errors in spelling, grammar, and punctuation will lead to grade reductions. Please proofread carefully! If you anticipate having writing problems, contact me ASAP and schedule with the Writing Center.

Incomplete and Withdrawal.

The grade of "I" will be awarded only in extreme exigent circumstances when all but a minor portion of the course work has been satisfactorily completed. Students should make arrangements with the instructor to receive an incomplete grade before the end of the semester. Requests for [incompletes \(I\)](http://catalog.arizona.edu/policy/grades-and-grading-system#incomplete) and [withdrawal \(W\)](http://catalog.arizona.edu/policy/grades-and-grading-system#Withdrawal) must be made in accordance with university policies, which are available at <http://catalog.arizona.edu/policy/grades-and-grading-system#incomplete> and <http://catalog.arizona.edu/policy/grades-and-grading-system#Withdrawal> respectively.

Late Work

Meeting deadlines is a professional job skill. Late assignment submissions and discussion participation are not acceptable. Please notify me immediately if you have a personal emergency that requires further consideration. You should have the appropriate documentation to verify an emergency. **If you are having difficulty balancing your obligations, please send me an email sooner rather than later to discuss options.**

Time Management: It's essential to keep up with the reading and assignments, as they build sequentially from one to the next and assignments depend upon that sequence. Time management is the key to success here: if you **check in on the coursework each day, even briefly**, you will not be overwhelmed by trying to do a week's worth of work on the weekend. Finding your own rhythm of the work-week is one of the most valuable unwritten lessons of graduate school.

Subject to Change Statement

Information contained in the course syllabus, other than the grade and absence policy, may be subject to change with advance notice, as deemed appropriate by the instructor.

Classroom Comportment

To foster a positive learning environment, students and instructors have a shared responsibility. We want a safe, welcoming, and inclusive environment where all of us feel comfortable with each other and where we can challenge ourselves to succeed. To that end, our focus is on the tasks at hand and not on extraneous activities (e.g., texting, chatting, reading a newspaper, making phone calls, web surfing, etc.).

Disruptive Behavior

Students are asked to refrain from disruptive conversations with people sitting around them during lecture. Students observed engaging in disruptive activity will be asked to cease this behavior. Those who continue to disrupt the class will be asked to leave lecture or discussion and may be reported to the Dean of Students.

Threatening Behavior Policy

The UA Threatening Behavior by Students Policy prohibits threats of physical harm to any member of the University community, including to oneself. See <http://policy.arizona.edu/education-and-student-affairs/threatening-behavior-students>.

Content Notification

This course may contain material of a mature nature appropriate to university education, which some students may find upsetting. Students are not automatically excused from interacting with such materials, but they are encouraged to speak with the instructor as soon as possible to address concerns.

Accessibility and Accommodations (DRC):

It is the University's goal that learning experiences be as accessible as possible. If you anticipate or experience physical or academic barriers based on disability, please let me know immediately so that we can discuss options. You are also welcome to contact Disability Resources (520-621-3268) to establish reasonable accommodations.

Code of Academic Integrity

Students are encouraged to share intellectual views and discuss freely the principles and applications of course materials. However, graded work/exercises must be the product of independent effort unless otherwise instructed. Students are expected to adhere to the UA Code of Academic Integrity as described in the UA General Catalog. See: <http://deanofstudents.arizona.edu/academic-integrity/students/academic-integrity>.

The University Libraries have some excellent tips for avoiding plagiarism, available at <http://new.library.arizona.edu/research/citing/plagiarism>.

Selling class notes and/or other course materials to other students or to a third party for resale is not permitted without the instructor's express written consent. Violations to this and other course rules are subject to the Code of Academic Integrity and may result in course sanctions. Additionally, students who use D2L or UA e-mail to sell or buy these copyrighted materials are subject to Code of Conduct Violations for misuse of student e-mail addresses. This conduct may also constitute copyright infringement.

Nondiscrimination and Anti-harassment Policy

The University of Arizona is committed to creating and maintaining an environment free of discrimination. In support of this commitment, the University prohibits discrimination, including

harassment and retaliation, based on a protected classification, including race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, gender identity, or genetic information. For more information, including how to report a concern, please see <http://policy.arizona.edu/human-resources/nondiscrimination-and-anti-harassment-policy>

Our classroom is a place where everyone is encouraged to express well-formed opinions and their reasons for those opinions. We also want to create a tolerant and open environment where such opinions can be expressed without resorting to bullying or discrimination of others.

Campus Pantry

Any student who has difficulty affording groceries or accessing sufficient food to eat every day, or who lacks a safe and stable place to live and believes this may affect their performance in the course, is urged to contact the Dean of Students for support. In addition, the University of Arizona Campus Pantry is open for students to receive supplemental groceries at no cost. Please see their website

at: campuspantry.arizona.edu for open times.

Furthermore, please notify me if you are comfortable in doing so. This will enable me to provide any resources that I may possess.

Preferred Gender Pronoun

This course affirms people of all gender expressions and gender identities. If you prefer to be called a different name than what is on the class roster, please let me know. Feel free to correct instructors on your preferred gender pronoun. If you have any questions or concerns, please do not hesitate to contact me directly in class or via email (instructor email). If you wish to change your preferred name or pronoun in the UAccess system, please use the following guidelines:

Preferred name: University of Arizona students may choose to identify themselves within the University community using a preferred first name that differs from their official/legal name. A student's preferred name will appear instead of the person's official/legal first name in select University-related systems and documents, provided that the name is not being used for the purpose of misrepresentation. Students are able to update their preferred names in UAccess.

Pronouns: Students may designate pronouns they use to identify themselves. Instructors and staff are encouraged to use pronouns for people that they use for themselves as a sign of respect and inclusion. Students are able to update and edit their pronouns in UAccess.

More information on updating your preferred name and pronouns is available on the Office of the Registrar site at <https://www.registrar.arizona.edu/>.
